### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steve Mendelsohn on 12 November 2004.

The application has been amended as follows:

#### **In the claims**

In claim 17, please delete lines 5-6 of the claim.

#### ***Allowable Subject Matter***

2. Claims 1-17 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art, including the references cited below, does not disclose or fairly suggest an apparatus or method for applying compensation to samples received from an optical channel including the specific combination of limitations, elements, and/or steps recited in claims 1, 9 and 17, particularly wherein decision devices, combiners, and a multiplier are connected in the specific way recited to perform the recited functions.

Gitlin et al. (US 5,191,462 A) generally disclose an apparatus for electrically compensating distortion in a signal received in a fiber optic system (Figure 1).

Reuven et al. (US 6,751,255 B1) generally disclose an apparatus for compensating distortion in a received signal (Figure 1) including a decision device 32, and combiners (such as combiners 30 and 40).

Nakata et al. (US 6,798,832 B1) generally disclose an apparatus for compensating dispersion in a received signal (Figures 5 and 6) including a decision device 43 and combiners (such as element 42).

However, neither Gitlin et al., Reuven et al., nor Nakata et al. specifically disclose or suggest the combination or arrangement of elements as recited in the present application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
